Saddek Wassil

Born in Makkah Al-Mukarrama in 1973, Saddek is not a sculptor in the traditional sense. He does not have formal training, his main medium is metal and he is greatly influenced by his surroundings, particularly human emotions. He equates metal with strength and his ability to manipulate it to his will gives him empowerment and a sense of achievement. His works have been exhibited nationally and he actively participates in international events and art fairs.

"I'm a hoarder, I don't like to throw anything away. I don't like the idea of discarding things. Nowadays, everything or everyone is dispensable. I suppose I try to show that you can find value in anything, or anyone"
